Curriculum Vitae

Saro Van Cleynenbreugel
Maker

Saro is a Flemish designer, photographer, farmer and technician. He has worked for years at art institute Mediamatic as technical coordinator. He designed and built various aquaponics systems and gave dozens of workshops all over Europe for people from all over the world. Saro is proficient with both pen and hammer. He likes to think and talk about smart and sustainable solutions, but above all, he believes that one learns by experience.
